

International Freight Management Customer Portal

Modern visibility to help you plan, manage and optimise your supply chain.

Partners in helping you manage your supply chain

Features:

- Efficiently track shipments and their status
- Manage orders, shipments, invoices and documents
- Analyse and optimise your supply chain

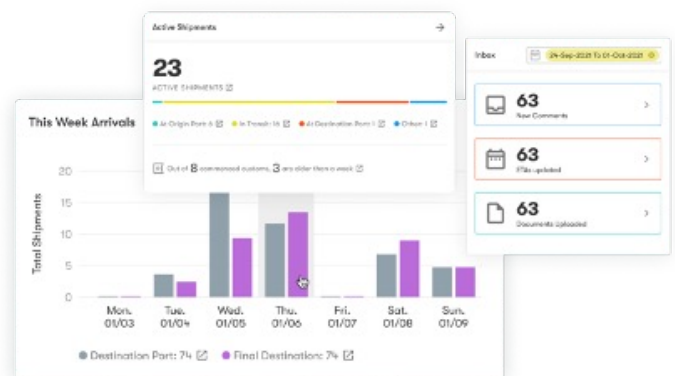

Real-time visibility on demand

See everything you need to know about your shipment all in one place. Find departure and arrival times, manage notifications, documents, invoices, and more.

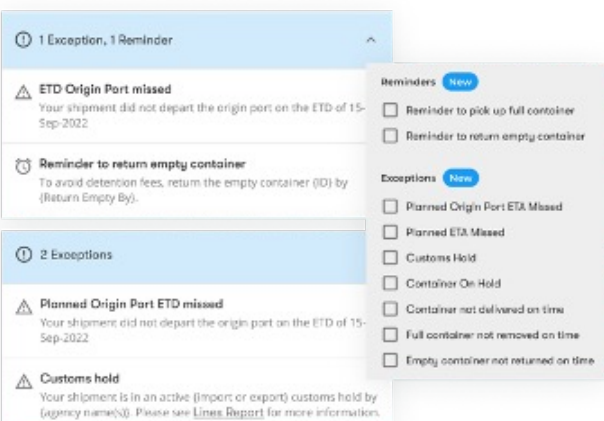

Optimise your business

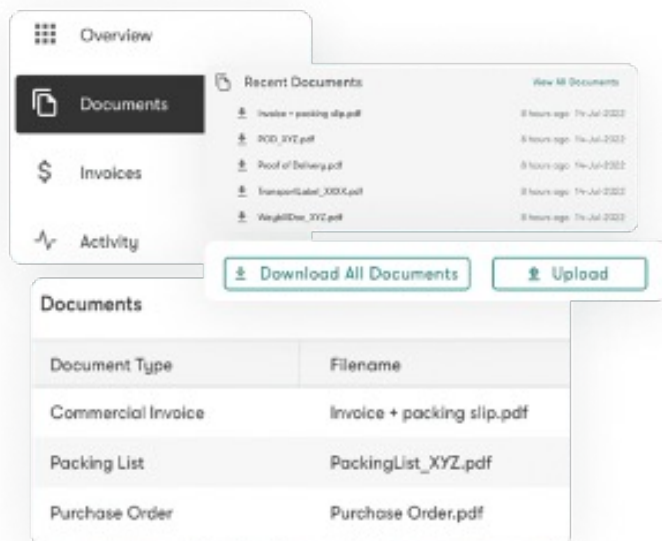

Save time, reduce manual operations and increase efficiency with our intuitive, easy to use digital platform.

Easier exceptions management

Increase efficiency with a centralised view of exceptions, paired with custom in-app notifications, reminders and automated email alerts.

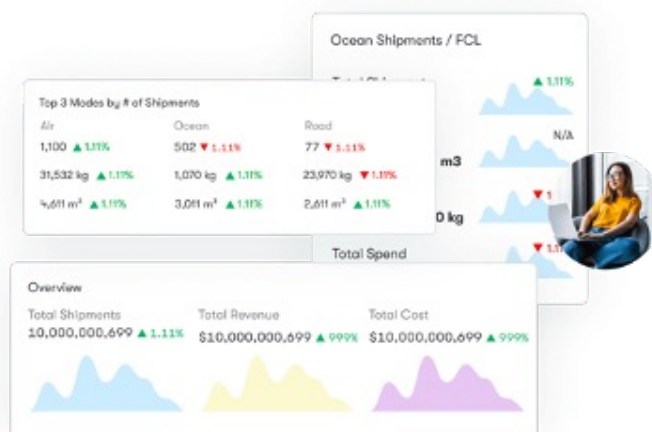

Centralised documents

Access shipment documents with a new level of visibility. Upload/download shipment documents directly, while automatic notifications alert you anytime there are document updates.

Analytics and insights

Analyse and optimise your supply chain with new, easy-to-use reporting.

Demonstration for customers

Northline offers a demonstration of the International Freight Management customer portal via the following platforms as well as over the phone.
